Reasons for Allowance

1. Claims 1-4, 6-7, 11-13, 78, 112-118, 121-122, and 125-136 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-4, 6-7, 11-13, 78, 112-118, 120-122, and 125-136 are allowed for reasons set forth by the applicant in the remarks filed 6/30/06. Specifically, claims 1, 78, and 121 limit the formation of an electronic device to having a dielectric material between electrodes of different composition, and where the dielectric layer decreases in titanium as the dielectric approaches the second electrode. This limitation, in combination with the other limitations of claims 1, 78, and 121 is not taught or suggested by the prior art of record.

Lim JP 2001-160557 and US 006570253) teaches increasing the level of the second electrode material within the dielectric layer as the layer approaches the area of the second electrode. Lim teaches this as a method of preventing diffusion of the electrode material into the dielectric layer. Any reversal of this would impair the intention of the Lim invention.

Claims 2-4, 6-7, 11-13, 112-118, and 120 are allowed as being properly dependent upon allowed claim 1.

Claims 125-136 are allowed as being properly dependent upon allowed claim 78.

Claim 122 is allowed as being properly dependent upon allowed claim 121.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
